Profile

Node.js Developer with hands-on experience in building and deploying web applications using the **MERN** stack. Skilled in developing **RESTful APIs**, managing database operations with **MySQL and MongoDB**, and integrating front-end components with backend logic. Completed an industrial MERN stack training and internship focused on building server-side applications, improving **API performance**, and ensuring smooth data communication between client and server.

Experience

Developer intern, Faith infosys

09/2025

Changanassery,
Kottayam, Kerala

- Built and optimized RESTful APIs for training modules, improving data reliability and response speed.
- Validated and refined database operations, enhancing data consistency.
- Debugged and improved React components with a 3-member team, reducing UI errors by ~20%.

Skills

Frontend: React.js, Redux, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, Express.js, Django, REST APIs

Database: MySQL, MongoDB

Tools: Git, Postman

Soft skills: Problem solving, Adaptability, Teamwork

Projects

Bugzilla, MERN Stack Bug Tracking System

07/2025 – 08/2025

Built a MERN-based Bug Tracking System with role-based access. Developed Express.js routes and controllers for issue and project modules, implementing RESTful APIs with validation and secure data handling.

Tech: React.js, Node.js, Express.js, MongoDB

MoonlitBites:HomeBaker, Python Django full stack system as academic project

02/2025

Built a Python Django web app with SQL, CRUD operations, role-based access, and password-reset authentication.

Tech: Python Django, MySQL

Education

MERN STACK Course, Faith Infosys

06/2025 – 08/2025

Completed 3-month industrial MERN Stack training focused on building scalable web applications.

Bachelor of science in Computer science, Mahatma Gandhi University

09/2022 – 06/2025
Kottayam , kerala, India
